DETAILED ACTION

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1, 2, 4, 6, 8, 11, 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beck in view of Kobayashi, et al.

It would have been obvious to mount the excavating arm in Beck to pivot about a vertical axis to provide more flexibility in view of the teaching in Kobayashi (axis x1).

Claims 3, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beck in view of Kobayashi, et al. as applied to claim 1 above, and further in view of Crawley.

It would have been obvious to provide a lock to promote safety and stops to limit rotation range in Beck in view of the teaching in Crawley (figure 2 and column 4, lines 60-68).

Claims 5, 7 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beck in view of Kobayashi, et al. as applied to claims 4, 1 and 11 above, and further in view of Brown.

It would have been obvious to provide mudguards to Beck in view of the teaching in Brown (figure 1).

It would also have been obvious to substitute a sloping hood and single arm for

the hood and arm in Beck in view of the hood and arm in Brown to provide more visibility for a driver in Beck.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Beck in view of Kobayashi, et al. as applied to claim 1 above, and further in view of Hayward.

It would have been obvious to substitute telescoping arms for the fixed length arms in Beck in view of the teaching in Hayward (figure 2) to provide more reach to the arms in Beck.
